information you can use

- All charts are **Action Charts**: do what you see. A knit is always a knit and a purl is always a purl.
- **Road Maps** and **Schematic Drawings** show "as knit" measurements, knitting technique placement, and knitting direction. "As knit" includes selvedge stitches for seaming or picking up stitches so the measurements may be slightly different than final measurements given.
- **Techniques** and **Abbreviations** not given on the following page can be found online at www.JillWolcottKnits.com/techniques.
- A blank row on instructions in tables means the instruction is the same as size above.
- When binding off within a round or row, the stitch following the BO number given is worked as part of the bind off.
- When an instructions says to work "a total of", that includes the initial time the instruction was worked.
